

Birth Experience Survey

If you are a Black woman who gave birth in the state of Oregon, in the last five years,
We want to hear your birth story. Please share your opinion. All stories matter.

Do you think your medical care during your pregnancy, birth or post-partum experience could have been improved?

The International Center for Traditional Childbearing is an African-American woman led organization. ICTC wants to collect your story so that we can improve pregnancy and birth experiences for women.

ICTC is an infant mortality prevention, breastfeeding promotion, midwifery and doula training, non-profit organization
